**Q: Who do I contact for a quote?**

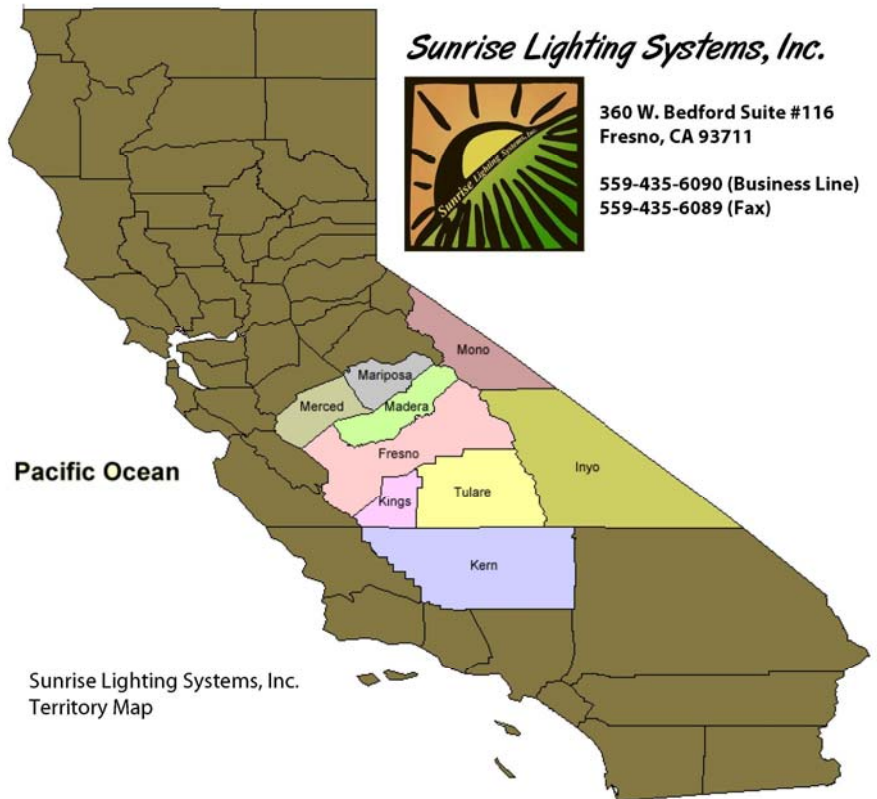

A: Robert Jr, Robert Sr. & Josh Nebels

**Q: Who do I send orders to?**

A: Kandace McVicar

**Q: Who do I email for invoices, payments, etc.?**

A: Robert Jr. or Kandace McVicar

# LSI Lighting

LSI offers both steel and aluminum poles with various sizes and options. See below for more info!

## 4", 5" & 6" SQUARE & ROUND STEEL POLES

- Pole shaft is electric-welded ASTM-A500 Grade C steel tubing with a minimum yield strength of 46,000 psi
- Pole base is ASTM-A36 hot-rolled steel plate with a minimum yield strength of 36,000 psi.
- Multiple high-strength pipe tenon mount steel poles available.
- Standard hand-hole location is 12" above pole base.
- Every pole is provided with the DuraGrip® Protection System and a 5-year limited warranty.
- When the top-of-the line DuraGrip® Plus Protection System is selected, in addition to the DuraGrip® Protection System, a non-porous, automotive grade corrosion coating is applied to the lower portion of the pole interior, sealing and further protecting it from corrosion. This option extends the limited warranty to 7 years.

## POLES & NEW LUMINAIRES

LSI POLES ARE MADE IN CINCINNATI, OHIO

If you need poles, and you need them fast, LSI has got you covered!

Their centrally located production facility can **ship most poles within 10 business days** after an order is placed.

Need them faster? They have the inventory to **ship many of their poles and brackets within 2 business days** after they receive an order!

"Our new Mirada Small Area Light and Wall Sconce are feature-rich and designed to provide exceptional performance," said Mike Prachar, Chief Marketing Officer of LSI Industries. "In addition to being aesthetically pleasing, both products will help our valued customers enhance their surroundings, increase safety, reduce energy costs and comply with environmental regulations."

On January 7, 2021 – LSI Industries (NASDAQ: LYTS) announced that it has expanded its Mirada product line with the addition of two new luminaires, the Mirada Small Area Light and the Mirada Small Wall Sconce. These high-performance, energy-efficient products are ideal for pedestrian scale outdoor applications such as parking lots and walkways.

## Sunlike

### Versatile and Economical

Sunlike may come at a small price, but it packs a big punch. This all-in-one LED solar streetlight is designed for both personal and professional areas in three different lumen outputs, 1600lm, 4000lm and 6000lm. Plus, it offers superior quality light over a much wider expanse of space.

Affordable and user-friendly, SunLike lights are perfect for a wide range of applications, including schools, parks, and pathways. It's an all-in-one solution die-cast in aluminum, making it as easy to install, as it is easy on the eyes. Available in three lumen outputs.

**Efficiency:** 200lm/W

**Lumens:** 1600lm, 4000lm, 6000lm

**Wattage:** 8W, 20W, 30W

**Panels:** 17Wp, 36Wp, 52 Wp

**Battery Location:** Integrated into the light

### 50+ Hours Max Autonomy

- UP to 384WH battery capacity
- Full self-charging time less than 8hr
- One-key smart programming

### High Brightness,

### Smart Power Consumption

- >200lm/W—highest lumen efficiency in industry
- Microwave motion sensor and one-key automatic dimming
- Automatically switches to 40% energy saving mode during low battery capacity

### Complete Universality

- Up to 6 different mounting options
- Works on round pole, square pole and wall pack applications
- Acts as a solar flood light

### More Energy Production

- Up to 52W Mono Crystalline Solar Panel
- Adjustable lighting module provides self-cleaning solar panel surface

### Longer Life

- Grade A LifePO4 Battery Pack, 2000+ full charging cycles
- Phillips 5050 LED chips

### Project Friendly & Low Maintenance Design

- Die cast A380 Aluminum fixture body, rust free 10+ year
- Field-replaceable battery functionality via quick connections
- 10+ year warranty options for city utility projects

# What's new at Brownlee?

## **NEW HIGH BEAM [OUTDOOR] (7490)**

An outdoor rated architectural solution for the specification market, featuring a fully luminous cylinder with performance driven lumen packages. Perfect for exterior breezeways, store fronts, and pool decks, as well as healthcare applications requiring sealed lighting solutions which can be easily wiped down. Four lengths available - all in a consistent 4" diameter.

## **"BRICK" 4' - DIRECT/INDIRECT INTERIOR LED SCONCE SERIES (1575)**

BRICK series 8", 12", 24", and 46" lengths. All sizes maintain an ADA-compliant 2.25" projection from the mounting surface. The smaller sizes are perfect for multifamily and hospitality hallways, while the larger sizes extend into patient rooms and larger commercial spaces.

## **FLOW LED - ULTRA SLIM BATH + VANITY SERIES (5160)**

The FLOW LED (model #: 5160) features a smooth flow of uniform illumination, utilizing an ultra slim diffuser (2" dia.) with efficiency ratings of 109+ lm/w, a contemporary yet minimal mounting plate, and three decorative end cap options. This unit is available in three sizes, each of which can be mounted horizontally over a mirror or vertically as a sconce. Fixture mounts to a 2x4 jbox - optional cover plate available to cover a 4x4 jbox (see options code "CVR").

## **NEW VIBRANT LED SURFACE MOUNT (2362) - EASY CLEAN**

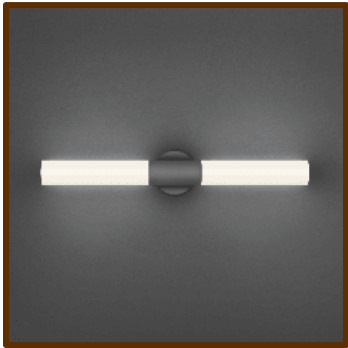

The 2362 LED is a sustainable solution for a variety of decorative lighting applications. The frosted matte acrylic drum is offered in a variety of vibrant colors and patterns which are bonded to the inner side of the shade for added protection and durability. The base (bottom) of the drum is constructed of high transmission white acrylic. The result is a high performance surface mount luminaire that can be cleaned with ease. Custom colors available to match your school, corporate brand, etc. Refer to the 2612 LED for a suspended version of this product.

# Brownlee continued....

## **NEW LED OUTDOOR CANOPY (7162)**

Decorative + Durable. Get the best of both worlds with the new 7162 LED outdoor canopy. Construction: impact resistant polycarbonate diffuser, marine grade die cast aluminum housing, tamper resistant stainless steel hardware. This versatile unit can be used in a variety of applications such as covered walkways, corridors, stairwells, parking garages, commercial restrooms and more. It also serves as a decorative, yet durable solution for vandal prone applications such as schools and student housing. Ceiling or wall mount. Battery backup optional.

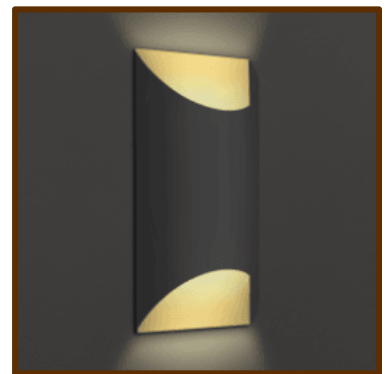

## **NEW "REVOLVE-D" INTERIOR LED VANITY (1276)**

The REVOLVE interior sconce collection features a matte acrylic cylindrical diffuser, an aluminum housing / inset end caps in your choice of finish, and dedicated field serviceable LED components. Perfect for general illumination in corridors/elevator lobbies and bathroom vanity applications. This series can be mounted horizontally or vertically. For a single direction cylinder, refer to the REVOLVE-S (Model #: 1270).

## **NEW INTERIOR LED SCONCE (1572)**

The 1572 LED features a smooth profile with vertically mirrored bows which produce a symmetrical LED wall wash. Offered in a variety of color combinations. Perfect for common areas and corridors in commercial offices, hotels and residential spaces. This unit features acrylic top and bottom covers to protect the light source. Refer to model #'s: 2080, 2680, and 1570 for coordinating looks.

Sunrise Lighting Systems was founded on the notion of providing superior service to our customers. Having a broad range of product lines from decorative and specialty lighting to commercial and site lighting is just one way of accomplishing that goal. There is always a friendly and knowledgeable member of the sales team available to help you with your lighting requirements.

## Goodbye, Gina

After 15 wonderful years, Gina Schmidt is retiring. She was always a bright light in the office and came to work with a smile on her face. She always showed up early to set the thermostat and

prepare the coffee so we could all have a hot, fresh cup when we arrived. She was a problem solver and always found a way to satisfy the customer's needs. She was very knowledgeable and helped us with any questions we may have had. She held this office together and her absence will not go unnoticed. She was more than a coworker; she was a friend! While we are all very sad about her leaving, we are excited to see where this next chapter in her life takes her.
